MEMBERS LIFE INSURANCE COMPANY

The depositor for the MEMBERS Horizon Variable Separate Account (a "Variable Separate Account") and the Risk Control Separate Account, MEMBERS Life Insurance Company (the "Company"), is a wholly-owned indirect subsidiary of CMFG Life Insurance Company ("CMFG Life") and a direct wholly-owned subsidiary of CUNA Mutual Investment Corporation ("CMIC"). The Company was formed by CMFG Life on February 27, 1976, as a stock life insurance company under the laws of the State of Wisconsin for the purpose of writing credit disability insurance. The original name of the Company was CUDIS Insurance Society, Inc. On August 3, 1989, the Company's name changed to CUMIS Life Insurance, Inc., and was subsequently changed to its current name on January 1, 1993. League Life Insurance Company (Michigan) merged into the Company on January 1, 1992, and MEMBERS Life Insurance Company (Texas) merged into the Company on January 1, 1993. The Company re-domiciled from Wisconsin to Iowa on May 3, 2007. The Company is 100% owned by CMIC, which is in turn 100% owned by CMFG Life. On February 17, 2012, the Company's Articles of Incorporation were amended and restated to change the Company's purpose to be the writing of any and all of the lines of insurance and annuity business authorized by Iowa Code Chapter 508 and any other line of insurance or annuity business authorized by the laws of the State of Iowa. Currently, the Company has no employees.

CMFG Life is a stock insurance company organized on May 20, 1935, and domiciled in Iowa. CMFG Life is one of the world's largest direct underwriters of credit life and disability insurance, and is a major provider of qualified pension products to credit unions. CMFG Life and its affiliated companies currently offer deferred and immediate annuities, individual term and permanent life insurance, and accident and health insurance. In 2012, CMFG Life was reorganized as a wholly-owned subsidiary of CUNA Mutual Financial Group, Inc. which is a wholly-owned subsidiary of CUNA Mutual Holding Company, a mutual insurance holding company organized under the laws of the State of Iowa.

The Company is authorized to sell life, health, and annuity policies in all states in the U.S. and the District of Columbia, except New York. As of December 31, 2018, the Company had more than \$3.3 billion in assets and more than \$80 million of life insurance in force. Currently, the Company services existing blocks of individual and group life policies. In addition, in August 2013, the Company began issuing a single premium deferred index annuity under the name "MEMBERS® Zone Annuity." In July 2016, the Company began issuing a flexible premium deferred variable and index-linked annuity contract under the name MEMBERS® Horizon Flexible Premium Deferred Variable and Index Linked Annuity. In December 2018, the Company began issuing a flexible premium variable and index-linked annuity contract under the name MEMBERS® Horizon II Flexible Premium Deferred Variable and Index Linked Annuity contract.

ADDITIONAL CONTRACT PROVISIONS

The Contract

The application, endorsements and all other attached papers are part of the Contract. The statements made in the application are representations and not warranties. We will not use any statement in defense of a claim or to void the Contract unless it is contained in the application.

Participation

Non-Participation.

PRINCIPAL UNDERWRITER

We offer the Contract on a continuous basis. We anticipate continuing to offer the Contracts, but reserve the right to discontinue the offering. CUNA Brokerage Services, Inc. ("CBSI") serves as principal underwriter (or distributor) for the Contract. CBSI is a Wisconsin corporation and its home office is located at 2000 Heritage Way, Waverly, Iowa 50677. CBSI is our indirect, wholly owned subsidiary, and is registered as a broker-dealer with the Securities and Exchange Commission ("SEC") under the Securities

Exchange Act of 1934, as amended, as well as with the securities commissions in the states in which it operates, and is a member of the Financial Industry Regulatory Authority, Inc. CBSI offers the Contract through its registered representatives. In addition, CBSI enters into selling agreements with other broker-dealers (“selling firms”) and compensates them for their services. Registered representatives of CBSI and of other selling firms are appointed as our insurance agents.

CBSI and the selling firms pay their registered representatives a portion of the commissions received for their sales of the Contract. Registered representatives may also be eligible for various cash benefits and non-cash compensation programs, such as conferences, seminars and trips (including travel, lodging and meals in connection therewith), entertainment, merchandise and other similar items, where sales of the Contract help such registered representatives qualify. We may pay certain selling firms additional amounts for promoting the Contract and/or educating their registered representatives about the Contract. These additional payments are not offered to all selling firms, and the terms of any particular agreement governing the payments may vary among selling firms.

CBSI received sales compensation with respect to certain combination variable and index-linked deferred annuity contracts funded through the Variable Separate Account in the following amounts during the periods indicated:

Fiscal Year	Aggregate Amount of Commissions Paid to CBSI	Aggregate Amount of Commissions Retained by CBSI After Payments to its Registered Persons and Selling Firms
2018	\$0	\$0

CBSI has not received any sales compensation with respect to the Contract as of the date hereof, as the Contract has not yet been offered for sale.

INCOME PAYMENTS

We use fixed rates of interest to determine the amount of income payments payable under the Income Payout Options. Income Payout Options offered under your Contract are described in the “Income Payout Options” in the Prospectus. Income Payout Options on a variable basis are not offered under your Contract.

RESOLVING MATERIAL CONFLICTS

The Funds are offered through other separate accounts affiliated with us, and directly to employee benefit plans affiliated with us. We do not anticipate any disadvantages to this. However, it is possible that a conflict may arise between the interest of the Variable Separate Account and one or more of the other separate accounts in which these Funds participate.

Material conflicts may occur due to a change in law affecting the operations of variable life insurance policies and variable annuity contracts, or differences in the voting instructions of the Owners and those of owners of other types of contracts issued by us. Material conflicts could also arise between the interests of Owners (or owners of other types of contracts issued by us) and the interests of participants in employee benefit plans invested in the Funds. If a material conflict occurs, we will take steps to protect Owners and variable annuity Payees, including withdrawal of the Variable Separate Account from participation in the Fund(s) involved in the conflict.

OTHER INFORMATION

A registration statement on Form N-4 (the "Registration Statement") has been filed with the SEC under the Securities Act of 1933, as amended, with respect to the Contract discussed in this SAI. Not all the information set forth in the Registration Statement, amendments and exhibits thereto has been included in this SAI. Statements contained in this SAI concerning the content of the Contract and other legal instruments are intended to be summaries. For a complete statement of the terms of these documents, reference should be made to the Prospectus filed with the SEC.

The Variable Separate Account and Risk Control Separate Account were each established as a separate account of MEMBERS Life Insurance Company on June 8, 2015.

CUSTODIAN

The Company is the custodian for the shares of the underlying Funds owned by the Variable Separate Account.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP, an independent registered public accounting firm, located at 111 S. Wacker Dr., Chicago, Illinois 60606 serves as the independent registered public accountant firm to the Company and the Variable Separate Account.

FINANCIAL STATEMENTS

The financial statements for the Company as of December 31, 2018 and 2017, the related statements of operations and comprehensive income (loss), stockholder's equity, and cash flows, for each of the three years in the period ended December 31, 2018, and the related notes which are included in this Prospectus and Statement of Additional Information have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein and elsewhere in the Registration Statement.

The statement of assets and liabilities for each of the subaccounts of the Variable Separate Account as of December 31, 2018, the related statements of operations for the period then ended, the statements of changes in net assets for each of the periods in the two years then ended and the financial highlights for the period in the two years then ended and the period ended July 11, 2016 to December 31, 2016 which are included in this Statement of Additional Information have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein in the Registration Statement.

The Company's financial statements should be distinguished from the financial statements of the Variable Separate Account, and you should consider the Company's financial statements only as bearing on the Company's ability to meet its obligations under your Contract.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
MEMBERS Life Insurance Company and
Contract Owners of MEMBERS Horizon Variable Separate Account:

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statements of assets and liabilities for each of the subaccounts of MEMBERS Horizon Variable Separate Account (the "Account") listed in Appendix A, as of December 31, 2018, the related statements of operations, the statements of changes in net assets, the financial highlights for each of the periods presented in Appendix A, and the related notes. In our opinion, such financial statements and financial highlights present fairly, in all material respects, the financial position of each of the subaccounts comprising the Account as of December 31, 2018, the results of their operations, the changes in their net assets, and the financial highlights for each of the periods presented in Appendix A, in conformity with accounting principles generally accepted in the United States of America.

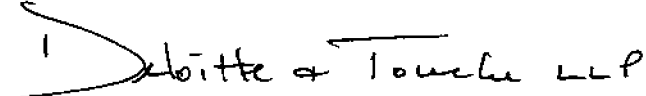

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Account's management. Our responsibility is to express an opinion on the Account's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Account in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Account is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included

confirmation of securities owned as of December 31, 2018, by correspondence with the Account's fund managers. We believe that our audits provide a reasonable basis for our opinion.

Deloitte & Touche LLP

February 25, 2019

We have served as the auditor of MEMBERS Horizon Variable Separate Account since 2016.

MEMBERS Horizon Variable Separate Account

Notes to Financial Statements

(1) Organization

MEMBERS Horizon Variable Separate Account (the "Account") was established by MEMBERS Life Insurance Company (the "Company") in 2015. The Account is registered with the Securities and Exchange Commission ("SEC") as a unit investment trust under the Investment Company Act of 1940 ("1940 Act") as amended. The Account commenced operations with effect from July 11, 2016.

The Account was established as a separate account of the Company to receive and invest net premiums paid by the contract owners to the Company under two flexible premium deferred variable and index linked annuity contracts ("contracts") issued by the Company: MEMBERS® Horizon Flexible Premium Deferred Variable and Index Linked Annuity (Series B and Series C) and MEMBERS® Horizon II Flexible Premium Deferred Variable and Index Linked Annuity (Series B).

The Account is divided into a number of subaccounts, each of which is treated as an individual accounting entity for financial reporting purposes. Each subaccount invests solely in a corresponding portfolio of one of the following funds, each an open-end management investment company registered with the SEC.

* This subaccount commenced operations on December 3, 2018. There have been no investments since the date of commencement.

MEMBERS Horizon Variable Separate Account

Notes to Financial Statements

(1) Organization (continued)

The accompanying financial statements include only the contract owner assets, deposits, investment activity, and the contract transactions applicable to the variable portions of the contracts and exclude assets and activity for deposits for fixed dollar benefits, which are included in the general account of the Company. The net investment income and the realized and unrealized gains and losses from the assets for each subaccount are credited to or charged against that subaccount without regard to income, gains or losses from any other subaccount.

(2) Significant Accounting Policies

Basis of Presentation

The Account is an investment company and follows the accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, *Financial Services-Investment Companies*.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are made in shares of a fund and are recorded at fair value, determined by the net asset value per share of the respective fund. Investment transactions in each fund are recorded on the trade date. Realized gains and losses on redemptions of the shares of the fund are determined using the average cost basis. Income from dividends and gains from realized gain distributions from each fund are recorded on the ex-dividend date and are reinvested in that fund. The difference between cost and fair value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

The operations of the Account are included in the consolidated federal income tax return of CUNA Mutual Holding Company ("CMHC"), the Account's ultimate parent, and its subsidiaries. The Company is taxed as a life insurance company under the provisions of the Internal Revenue Code ("IRC"). The Account's activities are included in the Company's taxable income. Under current provisions of the IRC, the Company does not expect to incur federal income taxes on recorded earnings or the realized capital gains attributed to the Account to the extent these earnings are credited to the contract owner's account. Accordingly, no provision for income tax is currently recorded. If such taxes are incurred by the Company in the future, a tax provision may be recorded.

(3) Fees and Charges

Contract Charges

Surrender Charge: Series B and Series C versions of the contract are available. Series C has no surrender charges. Series B has a five year surrender charge period. All references to surrender charges apply to Series B version only. A surrender charge is assessed against a contract owner's account upon surrender or partial withdrawal of purchase payments in excess of the free annual withdrawal amount. For purchase payments withdrawn or surrendered within the first and second year of the contract, the charge is 9% of the amount of the payment withdrawn or surrendered for Series B. The surrender charge decreases by 1% for each of the following three years that has elapsed since the purchase payment was recorded. No surrender charge is assessed upon the withdrawal or surrender of the contract value in excess of aggregate purchase payments or on purchase payments made more than six years prior to the withdrawal or surrender.

Subject to certain restrictions in each contract year, an amount equal to 10% of aggregate purchase payments (as of the time of withdrawal or surrender) may be surrendered without a surrender charge. The surrender charge also may be waived in certain circumstances as provided in the contracts. These charges

MEMBERS Horizon Variable Separate Account

Notes to Financial Statements

(3) Fees and Charges (continued)

are deducted by redeeming an appropriate number of units for each contract and are included in contract charges and fees on the accompanying Statements of Changes in Net Assets of the applicable subaccount.

For MEMBERS® Horizon II Flexible Premium Deferred Variable and Index Linked Annuity a Return of Purchase Payment Death Benefit Endorsement is attached to the contract and provides a return of purchase payment death benefit during the accumulation period. The death benefit is equal to the greater of the contract value as of the date death benefits are payable or total purchase payments adjusted for withdrawals. We do not apply the surrender charge or market value adjustment in determining the death benefit payable.

Transfer Fee: No charge is generally made for transfers between subaccounts. However, the Company reserves the right to charge \$25 for the 13th and each subsequent transfer during a contract year. These charges are deducted by redeeming an appropriate number of units for each contract and are included in contract charges and fees on the accompanying Statements of Changes in Net Assets of the applicable subaccount.

Premium Taxes: If state or other premium taxes are applicable to a contract, they will be deducted either: (a) from purchase payments as they are received, (b) from contract value upon surrender or partial withdrawal, (c) upon application of adjusted contract value to an annuity payment option, or (d) upon payment of a death benefit. The Company, however, reserves the right to deduct premium taxes at the time it pays such taxes. These charges are deducted by redeeming an appropriate number of units for each contract and are included in contract charges and fees on the accompanying Statements of Changes in Net Assets of the applicable subaccount.

Account Charges

Mortality and Expense Risk Charge: The Company deducts a daily administrative fee from the assets of the Subaccount to compensate it for certain expenses it incurs in administration of the contracts. The charge is deducted from the assets of the Subaccount at an annual rate of 1.50% for Series B or 1.75% Series C. These charges are deducted by redeeming an appropriate number of units for each contract and are included in contract charges and fees on the accompanying Statements of Operations of the applicable subaccount.

(4) Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value of assets and liabilities into three broad levels. The Account has categorized its financial instruments, based on the degree of subjectivity inherent in the valuation technique, as follows:

- Level 1: Inputs are directly observable and represent quoted prices for identical assets or liabilities in active markets the Account has the ability to access at the measurement date.
- Level 2: All significant inputs are observable, either directly or indirectly, other than quoted prices included in Level 1, for the asset or liability. This includes: (i) quoted prices for similar assets or liabilities in active markets, (ii) quoted prices for identical or similar assets or liabilities in markets that are not active and (iii) inputs other than quoted prices that are observable for the asset or liability, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: One or more significant inputs are unobservable and reflect the Account's estimates of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The hierarchy requires the use of market observable information when available for assessing fair value.

Notes to Financial Statements

(7) Financial Highlights (continued)

[^] This subaccount is not available for this product share type.

- (1)** The Total Return represents the total return for the periods indicated, including changes in the value of the underlying fund and expenses assessed through the reduction of unit values. These ratios do not include any expenses assessed through the redemption of units. The total return is calculated for each period shown and, accordingly, is not annualized for periods less than one year.
- (2)** The Investment Income Ratio represents dividends received by the subaccount, excluding capital gains distributions, divided by the daily average net assets for the period indicated. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the subaccount invests.
- (3)** The Expense Ratio represents the annualized contract expenses of the respective contract of the Account, consisting of mortality and expense risk charges, as defined in the Account Charges note. The ratios include only those expenses that result in a direct reduction to unit values. Charges made directly to contract owner accounts through the redemption of units and expenses of the underlying fund have been excluded.
- (a)** The subaccount commenced operations effective July 11, 2016. The beginning unit value reported for 2016 is equal to the unit value at the date of first investment.
- (b)** There were no investments for the years ended December 31, 2017 and 2016. The date of first investment occurred in 2018, and the beginning unit value reported in 2018 is equal to the unit value on this date.
- (c)** There were no investments as of December 31, 2016. The date of first investment occurred in 2017, and the beginning unit value reported in 2017 is equal to the unit value on this date.
- (d)** The subaccount commenced operations effective December 3, 2018. The beginning unit value is equal to the unit value at the date of first investment. There have been no investments in the subaccount since the date of commencement on December 3, 2018.

(8) Subsequent Events

The Account evaluated subsequent events through the date the financial statements were issued. During this period, there were no significant subsequent events that required adjustment to or disclosure in the accompanying financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholder of
MEMBERS Life Insurance Company

Opinion on the Financial Statements

We have audited the accompanying balance sheets of MEMBERS Life Insurance Company (the "Company") as of December 31, 2018 and 2017, the related statements of operations and comprehensive income (loss), stockholder's equity, and cash flows, for each of the three years in the period ended December 31, 2018, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

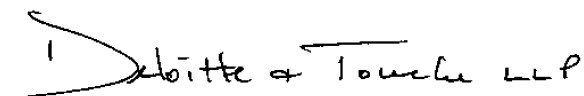

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Emphasis of a Matter

As discussed in Note 1 to the financial statements, results of the Company may not be indicative of those of a stand-alone entity, as the Company is a member of a controlled group of affiliated companies. Our opinion is not modified with respect to this matter.

Chicago, Illinois
March 4, 2019

We have served as the Company's auditor since 2012.

Note 1: Nature of Business

MEMBERS Life Insurance Company (“MLIC” or the “Company”) is a life and health insurance stock company organized under the laws of Iowa and a wholly-owned subsidiary of CUNA Mutual Investment Corporation (“CMIC”). CMIC is organized under the laws of Wisconsin and is a wholly-owned subsidiary of CMFG Life Insurance Company (“CMFG Life”), an Iowa life insurance company. CMFG Life and its affiliated companies primarily sell insurance and other products to credit unions and their members. The Company’s ultimate parent is CUNA Mutual Holding Company (“CMHC”), a mutual insurance holding company organized under the laws of Iowa. MLIC began selling flexible premium variable and index linked deferred annuity contracts in 2016 and single premium deferred index annuity contracts in 2013. Both products are sold to consumers, including credit union members, through the face-to-face distribution channel. Prior to 2013, MLIC did not actively market new business; it primarily serviced existing blocks of individual and group life policies. See Note 7, Reinsurance, for information on the Company’s reinsurance agreements.

MLIC is authorized to sell life, health and annuity policies in all states in the U.S. and the District of Columbia, except New York. The following table identifies states with premiums greater than 5% of total direct premium and states with deposits on annuity contracts greater than 5% of total deposits:

	Direct Life and Health Premium			Deposits on Annuity Contracts		
	2018	2017	2016	2018	2017	2016
Michigan	62%	62%	63%	7%	9%	6%
Texas	24	24	23	*	5	8
California	5	5	6	*	6	7
Pennsylvania	*	*	*	8	8	6
Iowa	*	*	*	6	7	6
Florida	*	*	*	6	*	*
Indiana	*	*	*	5	6	7
Wisconsin	*	*	*	5	6	6
Washington	*	*	*	*	*	5

*Less than 5%.

No other state represents more than 5% of the Company’s premiums or deposits for any year in the three years ended December 31, 2018.

As discussed in Note 6, CMFG Life provides significant services required in the conduct of the Company’s operations. Management believes allocations of expenses are reasonable, but the results of the Company’s operations may have materially differed from the results reflected in the accompanying financial statements if the Company did not have this relationship.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and in some cases the difference could be material. Investment valuations, embedded derivatives, deferred tax asset valuation reserves, and claim and policy benefit reserves are most affected by the use of estimates and assumptions.

Segment Reporting

The Company is currently managed as two reportable business segments, (1) life and health and (2) annuities. The Company's life and health segment includes individual and group life policies that the Company no longer actively markets. The annuities segment includes its single premium deferred index annuity contracts and flexible premium variable and index linked deferred annuity contracts. See Note 7, Reinsurance, for information on the Company's reinsurance agreements, which impact the financial statement presentation of these segments.

Investments

Debt securities: Investments in debt securities are classified as available-for-sale and are carried at fair value. A debt security is considered other-than-temporarily impaired when the fair value is less than the amortized cost basis and its value is not expected to recover through the Company's anticipated holding period of the security. If a credit loss exists, but the Company does not intend to sell the impaired debt security and is not more likely than not to be required to sell before recovery, it is required to bifurcate the impairment into the loss that is attributable to credit and non-credit related components. The credit portion of the other-than-temporary impairment ("OTTI") is the difference between the present value of the expected future cash flows and amortized cost. Only the estimated credit loss amount is recognized in net realized investment gains, with the remainder of the loss amount recognized in other comprehensive loss. If the Company intends to sell or it is more likely than not that the Company will be required to sell before anticipated recovery in value, the Company records a realized loss equal to the difference between the amortized cost and fair value. The fair value of the other-than-temporarily impaired security becomes its new cost basis. In determining whether an unrealized loss is expected to be other than temporary, the Company considers, among other factors, any plans to sell the security, the severity of impairment, financial position of the issuer, recent events affecting the issuer's business and industry sector, credit ratings, and the intent and ability of the Company to hold the investment until the fair value has recovered at least its cost basis.

Unrealized gains and losses on investments in debt securities, net of deferred federal income taxes, are included in accumulated other comprehensive income (loss) as a separate component of stockholder's equity.

Policy loans: The Company allocated \$1,367 and \$1,540 of policy loans to CMFG Life as of December 31, 2018 and 2017, respectively, as payment pursuant to a life reinsurance agreement with CMFG Life (See Note 7). As a result of the 2015 amendment, all policy loans are allocated to CMFG Life.

Net investment income: Interest income related to mortgage-backed and other structured securities is recognized on an accrual basis using a constant effective yield method, based on anticipated prepayments and the estimated economic life of the securities. When estimates of prepayments change, the effective yield is recalculated to reflect actual payments to date and anticipated future payments and such adjustments are reflected in net investment income. Prepayment assumptions for loan-backed bonds and structured securities are based on industry averages or internal estimates. Interest income related to non-structured securities is recognized on an accrual basis using a constant effective yield method. Discounts and premiums on debt securities are amortized over the estimated lives of the respective securities on an effective yield basis.

Net realized gains and losses: Realized gains and losses on the sale of investments are determined on a specific identification basis and are recorded on the trade date.

Assets on Deposit

Assets on deposit represent the amount of policyholder account balances related to reinsurance of the single premium deferred index annuity and risk control accounts of the flexible premium variable and index linked deferred annuity contracts (investment-type contracts) that are ceded to CMFG Life. Assets on deposit are accounted for on a basis consistent with accounting for the underlying investment type contracts; therefore, the Company accounts for the reinsurance of these contracts using the deposit method of accounting consistent with the terms of the reinsurance agreement with CMFG Life. The related contract charges and interest credited to policyholder account balances in the statements of operations and comprehensive income (loss) are reported net of the amounts ceded under the agreement. See Note 7 for a further discussion of the ceding agreement.

Derivative Financial Instruments

The Company issues single premium deferred index annuity and flexible premium variable and index linked deferred annuity contracts that contain embedded derivatives. Derivatives embedded within non-derivative host contracts are separated from the host instrument when the embedded derivative is not clearly and closely related to the host instrument. Such embedded derivatives are recorded at fair value, and they are reported as part of assets on deposit and policyholder account balances in the balance sheets, with the change in the value being recorded in net realized investment (losses). See Note 3, Investments-Embedded Derivatives for additional information.

Changes in the fair value of the embedded derivative in assets on deposit offset changes in the fair value of the embedded derivative in policyholder account balances; both of these changes are included in net realized investment gains and are ceded as part of the ceding and reinsurance agreements. Accretion of the interest on assets on deposit offsets accretion of the interest on the host contract; both of these amounts are included in interest credited on policyholder account balances and are ceded as part of the ceding and reinsurance agreements.

Cash and Cash Equivalents

Cash and cash equivalents include unrestricted deposits in financial institutions with maturities of 90 days or less. The Company recognizes a liability in accounts payable and other liabilities for the amount of checks issued in excess of its current cash balance. The change in this overdraft amount is recognized as a financing activity in the Company's statement of cash flows.

Variable Interest Entities

A variable interest entity ("VIE") is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make significant decisions relating to the entity's operations through voting rights or do not substantively participate in the gains and losses of the entity. Consolidation of a VIE by its primary beneficiary is not based on majority voting interest, but is based on a review of the VIE's capital structure, contractual relationships and terms, nature of the VIE's operations and purpose, nature of the VIE's interests issued and the Company's involvement with the entity. When assessing the need to consolidate a VIE, the Company evaluates the design of the VIE as well as the related exposure to the variable interest holders.

The primary beneficiary is the entity that has both the power to direct the activities of the VIE that most significantly affect the entity's economic performance and the obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. While also considering these factors, the consolidation conclusion depends on the breadth of the Company's decision-making ability and the Company's ability to influence activities that significantly affect the economic performance of the VIE.

Unconsolidated VIEs: The Company invests in residential mortgage-backed securities which are classified as VIEs for which the Company is not the primary beneficiary, and, therefore, these VIEs were not consolidated on

the Company's balance sheets. The Company invests in these securities with the primary purpose of earning capital appreciation. The maximum exposure to loss relating to these securities is equal to the carrying amount of the security. The values of these investments are disclosed in the Debt Securities section of Note 3.

Recognition of Insurance Revenue and Related Benefits

Term-life and whole-life insurance premiums are recognized as premium income when due. Policy benefits for these products are recognized in relation to the premiums so as to result in the recognition of profits over the expected lives of the policies and contracts.

Policies not subject to significant mortality or longevity risk, such as the Company's single premium deferred index annuity and flexible premium variable and index linked deferred annuity contracts, are considered investment-type contracts. Amounts collected on these products, with the exception of the variable annuity component of the flexible premium variable and index linked deferred annuity, are recorded as increases in policyholder account balances. The variable annuity component of the flexible premium variable and index linked deferred annuity meets criteria for separate account reporting and therefore is recorded in separate account assets and liabilities. Revenues from investment-type contracts principally consist of net investment income and contract charges such as expense and surrender charges. Expenses for investment-type contracts consist of interest credited to contracts, benefits incurred in excess of related policyholder account balances and policy maintenance costs. Because the Company has entered into an agreement with CMFG Life to cede 100% of this business, these revenues and expenses are ceded and do not impact the statement of operations and comprehensive income (loss). See Note 7, Reinsurance for additional information on this agreement.

Other Income / Operating and Other Expenses

Other income in 2018 represents advisory fees based on a percentage of assets under management. Other income in 2017 and 2016 includes legal settlements received on structured security investments that had previously been sold. Operating and other expenses in 2017 and 2016 include legal expenses related to settlements received. There were no legal settlements in 2018.

Deferred Policy Acquisition Costs

The costs of acquiring insurance business that are directly related to the successful acquisition of new and renewal business are deferred to the extent that such costs are expected to be recoverable from future profits. Such costs principally include commissions and sales costs, premium taxes, and certain policy issuance and underwriting costs. Costs deferred on term-life and whole-life insurance products, deferred policy acquisition costs ("DAC"), are amortized in proportion to the ratio of the annual premium to the total anticipated premiums generated. Due to the age of the life insurance policies, all DAC has been fully amortized as of December 31, 2018 and 2017 and there was no amortization expense in 2018, 2017 or 2016.

Acquisition costs on the Company's single premium deferred index annuity and flexible premium variable and index linked deferred annuity contracts are reimbursed through a ceding commission by CMFG Life, which assumes all deferrable costs as part of its agreement to assume 100% of this business from the Company. See Note 7, Reinsurance for additional information on this agreement.

Claim and Policy Benefits Reserves – Life and Health

Life and health claim and policy benefit reserves consist principally of future policy benefit reserves and reserves for estimates of future payments on incurred claims reported but not yet paid and unreported incurred claims. Estimates for future payments on incurred claims are developed using actuarial principles and assumptions based on past experience adjusted for current trends. Any change in the probable ultimate liabilities is reflected in net income in the period in which the change is determined.

When actual experience indicates that existing contract liabilities, together with the present value of future gross premiums will not be sufficient to recover the present value of future benefits or recover unamortized deferred acquisition costs, a premium deficiency will be recognized by either a reduction in unamortized acquisition costs or an increase in the liability for future benefits. There was no premium deficiency in 2018, 2017 or 2016.

Additionally, the liability for future policy benefits may not be deficient in the aggregate to trigger a premium deficiency, but the pattern of earnings may be such that profits are expected to be recognized in early years followed by losses in later years. In those situations, the liability for future benefits will be increased to offset losses that would be recognized in later years. The Company recorded a liability of \$138 as of December 31, 2018 for the profits that are expected to be followed by losses in the future. There was no liability recorded for the year ended December 31, 2017.

Policyholder Account Balances

The single premium deferred index annuities and risk control accounts of the flexible premium variable and index linked deferred annuities are included in policyholder account balances. These products have two risk control accounts, referred to as the Secure and Growth Accounts; the Secure Account has a yearly credited interest rate floor of 0% and the yearly Growth Account floor is -10%. The Secure and Growth Accounts both have credited interest rate caps that vary based on the issuance date of the contract. Interest is credited at the end of each contract year during the selected index term based on the allocation between risk control accounts and the performance of an external index (reference index) during that contract year. For the single premium deferred index annuity, the Company offers one reference index, which is the S&P 500 Index. For the flexible premium variable and index linked deferred annuity, the Company offers two reference indices, which are the S&P 500 Index and the MSCI EAFE Index. Policyholders are able to allocate funds in both the Secure and Growth Accounts for the available indices. At the end of the initial index term, only the Secure Account is available as an option to the policyholder. The average annualized credited rate for the single premium deferred index annuity was 1.50%, 1.44% and 1.63% in 2018, 2017 and 2016, respectively. The average annualized credited rate for the risk control accounts of the flexible premium variable and index linked deferred annuity was 1.20%, 1.59% and 1.12% in 2018, 2017 and 2016, respectively.

The Company recognizes a liability at the stated account value for policyholder deposits that are not subject to significant policyholder mortality or longevity risk and for universal life-type policies. The account value equals the sum of the original deposit and accumulated interest, less any withdrawals and expense charges. The average credited rate was 4.5% in 2018, 2017 and 2016. The future minimum guaranteed interest rate during the life of the contracts is 4.5%.

Accounts Payable and Other Liabilities

The Company issues the single premium deferred index annuity contracts on the 10th and 25th of each month. The Company recognizes a liability on contracts for which it has received cash, but has not issued a contract.

Reinsurance

Reinsurance premiums, claims and benefits, commission expense reimbursements, and reserves related to reinsured business ceded are accounted for on a basis consistent with the accounting for the underlying direct policies that have been ceded and the terms of the reinsurance contracts. Premiums and insurance claims and benefits in the statements of operations and comprehensive income (loss) are reported net of the amounts ceded to other companies under such reinsurance contracts. Ceded insurance reserves and ceded benefits paid are included in reinsurance recoverables along with certain ceded policyholder account balances, which include mortality risk. A prepaid reinsurance asset is also recorded for the portion of unearned premiums related to ceded policies.

Separate Accounts

Separate accounts represent customer accounts related to the variable annuity component of the flexible premium variable and index linked deferred annuity contracts issued by the Company, where investment income and investment gains and losses accrue directly to the contract holders who bear the investment risk.

Contract holders are able to invest in investment funds managed for their benefit. All of the separate account assets are invested in unit investment trusts that are registered with the Securities and Exchange Commission ("SEC") as of December 31, 2018.

Separate account assets are legally segregated and may only be used to settle separate account liabilities. Separate account assets are carried at fair value, which is based on daily quoted net asset values at which the Company could transact on behalf of the contract holder. Separate account liabilities are equal to the separate account assets and represent contract holders' claims to the related assets. Contract holder deposits to and withdrawals from the separate accounts are recorded directly to the separate account assets and liabilities and are not included in the Company's statements of operations and comprehensive income (loss).

Charges made by the Company to the contract holders' balances include fees for maintenance, administration, cost of insurance, and surrenders of contracts prior to the contractually specified dates. Because the Company has entered into an agreement with CMFG Life to cede 100% of this business, these revenues are ceded and do not impact the statement of operations and comprehensive income (loss). See Note 7, Reinsurance for additional information on this agreement.

Income Taxes

The Company recognizes taxes payable or refundable and deferred taxes for the tax consequences of differences between the financial reporting and tax basis of assets and liabilities. Deferred tax assets and liabilities are measured by applying the enacted tax rates to the difference between the financial statement and tax basis of assets and liabilities. The Company records current tax benefits and deferred tax assets utilizing a benefits-for-loss approach. Under this approach, current benefits are realized and deferred tax assets are considered realizable by the Company when realized or realizable by the consolidated group of which the Company is a member even if the benefits would not be realized on a stand-alone basis. The Company records a valuation allowance for deferred tax assets if it determines it is more likely than not that the asset will not be realized by the consolidated group. Deferred income tax assets can be realized through future earnings, including, but not limited to, the generation of future income, reversal of existing temporary differences and available tax planning strategies.

The Company is subject to tax-related audits. These audits may result in additional tax assets or liabilities. In establishing tax liabilities, the Company determines whether a tax position is more likely than not to be sustained under examination by the appropriate taxing authority. Tax positions that do not meet the more likely than not standard are not recognized. Tax positions that meet this standard are recognized in the financial statements within net deferred tax assets or liabilities or federal income taxes recoverable or payable.

As a result of the comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"), which was enacted by the U.S. federal government on December 22, 2017, the Company remeasured its deferred tax assets and liabilities as of December 22, 2017 and included the results of remeasurement in its December 31, 2017 financial results. The impact of the remeasurement and further discussion on the Tax Act are disclosed in the Tax Reform section of Note 5, Income Tax.

Recently Adopted Accounting Standard Updates

In February 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2018-02, *Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income* ("ASU 2018-02"), effective in 2018. The Company elected to adopt ASU 2018-02 in 2018. The new guidance

permits reclassification from accumulated other comprehensive income (“AOCI”) to retained earnings for “stranded tax effects” as defined in ASU 2018-02. Stranded tax effects occur when a change in enacted tax rates is recorded in income from continuing operations, even in situations in which the related income tax effects were originally recognized in AOCI, rather than in income from continuing operations. Companies may elect to make the reclassification only as it relates to the U.S. federal income tax rate cut made by the Tax Act. The Company’s election reduced retained earnings and increased AOCI by \$3 but did not change total stockholder’s equity or net income.

In August 2018, the FASB issued ASU No. 2018-13, *Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”), effective in 2020, with early adoption permitted. The Company elected to adopt ASU 2018-13 in 2018. Items removed from Note 4, Fair Value, include the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for timing of transfers between levels, and the valuation process for Level 3 fair value measurements. New disclosures added include the changes in unrealized gains and losses included in other comprehensive income for recurring Level 3 fair value measurements held at the end of the reporting period and the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements.

Accounting Standards Updates Pending Adoption

In June 2016, the FASB issued ASU No. 2016-13, *Measurement of Credit Losses of Financial Instruments* (“ASU 2016-13”) with an effective date in 2020 for public business entities and 2021 for others. The new standard replaces the existing incurred loss recognition model with an expected credit loss recognition model. The objective of the expected credit loss model is for the Company to recognize its estimate of expected credit losses for affected financial assets in a valuation allowance deducted from the amortized cost basis of the related financial assets that results in presenting the net carrying value of the financial assets at the amount expected to be collected. The Company must consider all available relevant information when estimating expected credit losses, including details about past events, current conditions, and reasonable and supportable forecasts over the contractual life of an asset. Financial assets may be evaluated individually or on a pooled basis when they share similar risk characteristics. The measurement of credit losses for available-for-sale debt securities measured at fair value is not affected, except that credit losses recognized are limited to the amount by which fair value is below amortized cost and the carrying value adjustment is recognized through an allowance and not as a direct write-down. Upon adoption, the Company does not expect the impact of ASU 2016-13 to be material.

In August 2018, the FASB adopted ASU No. 2018-12, *Targeted Improvements to the Accounting for Long-Duration Contracts* (“ASU 2018-12”) with an effective date in 2021 for public business entities and 2022 for other entities. The new standard makes significant changes to accounting requirements for long-duration insurance contracts, including long-term care, traditional and limited payment life insurance, and annuities. The significant provisions are shown below.

- Under current guidance, the liability for future policy benefits for long-duration products is established based on assumptions set at issue which are not changed unless there is a premium deficiency. Under ASU 2018-12, these assumptions, which include mortality, morbidity, persistency, expenses, and the discount rate, must be reviewed for changes at least annually. When assumptions other than the discount rate are changed, the liability is recomputed and a cumulative catch-up adjustment is recorded in the current year income statement. The discount rate, which is based on the yield of an upper-medium-grade fixed income instrument, must be updated each reporting period; changes in the liability resulting from the discount rate are recorded in other comprehensive income.
- The liability for future policy benefits can no longer include a provision for adverse deviation.
- Because liability assumptions are updated periodically, the test for premium deficiency is no longer required for nonparticipating traditional and limited payment contracts.
- ASU 2018-12 introduces the concept of market risk benefits for product features such as guaranteed minimum death or income benefits, which must be accounted for at fair value.
- Deferred acquisition costs will generally be amortized to expense on a constant level basis, either individually or on a grouped contract basis consistent with the related reserves, over the expected term of the contracts. Amortization based on estimated gross profits or gross margins will be eliminated. The

MEMBERS Life Insurance Company
Notes to Financial Statements
(\$ in 000s)

deferred policy acquisition costs asset does not need to be tested for impairment, no interest is accreted, and shadow adjustments are no longer required.

- Insurers must provide disclosures that allow financial statement users to understand the amount, timing, and uncertainty of future cash flows arising from the insurance liabilities.

The Company is currently evaluating the potential impact of ASU 2018-12.

Note 3: Investments

Debt Securities

The amortized cost, gross unrealized gains and losses, and estimated fair values, as reported on the balance sheet, of debt securities at December 31, 2018 are as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
U.S. government and agencies	\$ 8,744	\$ -	\$ (521)	\$ 8,223
Domestic corporate securities	16,476	188	(9)	16,655
Residential mortgage-backed securities	639	14	-	653
Foreign corporate securities	3,997	44	(3)	4,038
Total debt securities	\$ 29,856	\$ 246	\$ (533)	\$ 29,569

The amortized cost, gross unrealized gains and losses, and estimated fair values, as reported on the balance sheet, of debt securities at December 31, 2017 are as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
U.S. government and agencies	\$ 9,052	\$ 5	\$ (103)	\$ 8,954
Residential mortgage-backed securities	1,598	115	-	1,713
Total debt securities	\$ 10,650	\$ 120	\$ (103)	\$ 10,667

No investments were non-income producing in 2018 or 2017.

MEMBERS Life Insurance Company
Notes to Financial Statements
(\$ in 000s)

The amortized cost and estimated fair values of investments in debt securities at December 31, 2018, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because certain borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Because of the potential for prepayment on residential mortgage-backed securities, such securities have not been displayed in the table below by contractual maturity.

	Amortized Cost	Estimated Fair Value
Due after one year through ten years	\$ 20,473	\$ 20,693
Due after ten years	8,744	8,223
Residential mortgage-backed securities	639	653
Total debt securities	\$ 29,856	\$ 29,569

Net Investment Income

Sources of investment income for the years ended December 31 are summarized as follows:

	2018	2017	2016
Gross investment income:			
Debt securities	\$ 368	\$ 321	\$ 363
Cash and cash equivalents	452	217	53
Total gross investment income	820	538	416
Investment expenses	(58)	(21)	(40)
Net investment income	\$ 762	\$ 517	\$ 376

Net Realized Investment Gains

Proceeds from the sale of debt securities were \$651 in 2018. There were no sales or transfers of debt securities in 2017 and 2016 that resulted in a realized investment gain or loss.

Other-Than-Temporary Investment Impairments

Investment securities are reviewed for OTTI on an ongoing basis. The Company creates a watchlist of securities based largely on the fair value of an investment security relative to its cost basis. When the fair value drops below the Company's cost, the Company monitors the security for OTTI. The determination of OTTI requires significant judgment on the part of the Company and depends on several factors, including, but not limited to:

- The existence of any plans to sell the investment security.
- The extent to which fair value is less than book value.
- The underlying reason for the decline in fair value (credit concerns, interest rates, etc.).

MEMBERS Life Insurance Company

Notes to Financial Statements

(\$ in 000s)

- The financial condition and near term prospects of the issuer/borrower, including the ability to meet contractual obligations, relevant industry trends and conditions.
- The Company's intent and ability to retain the investment for a period of time sufficient to allow for an anticipated recovery in fair value.
- The Company's ability to recover all amounts due according to the contractual terms of the agreements.
- The Company's collateral position in the case of bankruptcy or restructuring.

A debt security is considered other-than-temporarily impaired when the fair value is less than the amortized cost basis and its value is not expected to recover through the Company's anticipated holding period of the security. If a credit loss exists, but the Company does not intend to sell the impaired debt security and is not more likely than not to be required to sell before recovery, it is required to bifurcate the impairment into the loss that is attributable to credit and non-credit related risk. The credit portion of the OTTI is the difference between the present value of the expected future cash flows and amortized cost. Only the estimated credit loss amount is recognized in earnings, with the remainder of the loss amount recognized in other comprehensive income (loss). If the Company intends to sell, at the time this determination is made, the Company records a realized loss equal to the difference between the amortized cost and fair value. The fair value of the other-than-temporarily impaired security becomes its new cost basis. In determining whether an unrealized loss is expected to be other than temporary, the Company considers, among other factors, any plans to sell the security, the severity of impairment, financial position of the issuer, recent events affecting the issuer's business and industry sector, credit ratings, and the ability of the Company to hold the investment until the fair value has recovered at least its cost basis.

For securitized debt securities, the Company considers factors including residential property changes in value that vary by property type and location and average cumulative collateral loss rates that vary by vintage year. These assumptions require the use of significant management judgment and include the probability of issuer default and estimates regarding timing and amount of expected recoveries. In addition, projections of expected future debt security cash flows may change based upon new information regarding the performance of the issuer and/or underlying collateral.

For certain securitized financial assets with contractual cash flows, the Company is required to periodically update its best estimate of cash flows over the life of the security. If the fair value of a securitized financial asset is less than its cost or amortized cost and there has been a decrease in the present value of the estimated cash flows since the last revised estimate, considering both timing and amount, an OTTI charge is recognized. The Company also considers its intent and ability to retain a temporarily impaired security until recovery. Estimating future cash flows involves judgment and includes both quantitative and qualitative factors. Such determinations incorporate various information and assessments regarding the future performance of the underlying collateral. In addition, projections of expected future cash flows may change based upon new information regarding the performance of the underlying collateral.

Management has completed a review for other-than-temporarily impaired securities at December 31, 2018, 2017 and 2016 and recorded no OTTI. As a result of the subjective nature of these estimates, however, provisions may subsequently be determined to be necessary as new facts emerge and a greater understanding of economic trends develops. Consistent with the Company's practices, OTTI will be recorded as appropriate and as determined by the Company's regular monitoring procedures of additional facts.

Net Unrealized Investment Gains (Losses)

The components of net unrealized investment gains (losses) included in accumulated other comprehensive income (loss) at December 31 were as follows:

	2018	2017	2016
Debt securities	\$ (287)	\$ 17	\$ (498)
Deferred income taxes	61	(6)	175
Net unrealized investment gains (losses)	\$ (226)	\$ 11	\$ (323)

At December 31, 2018, the Company owned three debt securities with a fair value of \$10,209 in an unrealized investment loss position. Of these, one with a fair value of \$8,223 have been in an unrealized loss position for twelve or more months. The \$521 unrealized loss for debt securities with a loss period 12 months or greater represents an 6.0% price impairment. The remaining two securities have a fair value of \$1,986 and have been in an unrealized loss for under 12 months. The \$12 unrealized loss for debt securities with a loss period less than 12 months represents an 0.6% price impairment. The total fair value of debt securities, which reflect an unrealized loss at December 31, 2018 and which are rated investment grade, is \$10,209 or 100.0% of the total fair value of all debt securities which reflect an unrealized loss at December 31, 2018. For these purposes investment grade is defined by the Company to be securities rated BBB or greater.

Embedded Derivatives

The Company issues single premium deferred index annuity and flexible premium variable and index linked deferred annuity contracts that contain embedded derivatives. Such embedded derivatives are separated from their host contracts and recorded at fair value. The fair value of the embedded derivatives, which are reported as part of assets on deposit and policyholder account balances in the balance sheets, were an asset of \$524,178 and a liability of \$524,178 as of December 31, 2018 and an asset of \$471,192 and a liability of \$471,192 as of December 31, 2017. The increase (decrease) in fair value related to embedded derivatives from the date of deposit was (\$45,101), \$136,078 and \$49,225 for the years ended December 31, 2018, 2017 and 2016, respectively. Because the Company has entered into an agreement with CMFG Life to cede 100% of this business, these amounts are ceded and do not impact the statement of operations and comprehensive income (loss).

Assets Designated/Securities on Deposit

Iowa law requires that assets equal to a life insurer's "legal reserve" must be designated for the Iowa Department of Commerce, Insurance Division. The legal reserve is equal to the net present value of all outstanding policies and contracts involving life contingencies. At December 31, 2018 and 2017, debt securities and cash with a carrying value of \$27,621 and \$8,694, respectively, were accordingly designated for Iowa. Other regulatory jurisdictions require cash and securities to be deposited for the benefit of policyholders. Pursuant to these requirements, securities with a fair value of \$1,998 and \$2,024 were on deposit with other regulatory jurisdictions as of December 31, 2018 and 2017, respectively.

Note 4: Fair Value

The Company uses fair value measurements to record fair value of certain assets and liabilities and to estimate fair value of financial instruments not recorded at fair value but required to be disclosed at fair value. Certain financial instruments, such as insurance policy liabilities (other than investment-type contracts), are excluded from the fair value disclosure requirements.

Valuation Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value of assets and liabilities into three broad levels. The Company has categorized its financial instruments, based on the degree of subjectivity inherent in the valuation technique, as follows:

- Level 1: Inputs are directly observable and represent quoted prices for identical assets or liabilities in active markets the Company has the ability to access at the measurement date.
- Level 2: All significant inputs are observable, either directly or indirectly, other than quoted prices included in Level 1, for the asset or liability. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: One or more significant inputs are unobservable and reflect the Company's estimates of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

For purposes of determining the fair value of the Company's assets and liabilities, observable inputs are those inputs used by market participants in valuing financial instruments, which are developed based on market data obtained from independent sources. The Company uses prices and inputs that are current as of the measurement date. In some instances, valuation inputs used to measure fair value fall into different levels of the fair value hierarchy. The category level in the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The hierarchy requires the use of market observable information when available for assessing fair value. The availability of observable inputs varies by investment. The Company has no Level 3 investments with unrealized gains or losses included in other comprehensive income (loss).

Valuation Process

The Company is responsible for the determination of fair value and the supporting assumptions and methodologies. The Company gains assurance on the overall reasonableness and consistent application of valuation methodologies and inputs and compliance with accounting standards through the execution of various processes and controls designed to provide assurance that the Company's assets and liabilities are appropriately valued.

The Company has policies and guidelines that require the establishment of valuation methodologies and consistent application of such methodologies. These policies and guidelines govern the use of inputs and price source hierarchies and provide controls around the valuation processes. These controls include appropriate review and analysis of prices against market activity or indicators of reasonableness, approval of price source changes, price overrides, methodology changes and classification of fair value hierarchy levels. The valuation policies and guidelines are reviewed and updated as appropriate.

Transfers Between Levels

There were no transfers between levels during the years ended December 31, 2018 and 2017.

Fair Value Measurement – Recurring Basis

The following table summarizes the Company's assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2018.

Assets, at Fair Value	Level 1	Level 2	Level 3	Total
Cash equivalents ¹	\$ 21,630	\$ -	\$ -	\$ 21,630
Debt securities:				
U.S. government and agencies	-	8,223	-	8,223
Domestic corporate securities	-	16,655	-	16,655
Residential mortgage-backed securities	-	653	-	653
Foreign corporate securities	-	4,038	-	4,038
Total debt securities	-	29,569	-	29,569
Derivatives embedded in assets on deposit	-	-	524,178	524,178
Separate account assets	-	103,205	-	103,205
Total assets	\$ 21,630	\$ 132,774	\$ 524,178	\$ 678,582

Liabilities, at Fair Value	Level 1	Level 2	Level 3	Total
Derivatives embedded in annuity contracts	\$ -	\$ -	\$ 524,178	\$ 524,178
Total liabilities	\$ -	\$ -	\$ 524,178	\$ 524,178

¹Excludes cash of \$3,282 that is not subject to fair value accounting.

MEMBERS Life Insurance Company
Notes to Financial Statements
(\$ in 000s)

The following table summarizes the Company's assets that are measured at fair value on a recurring basis as of December 31, 2017.

Assets, at Fair Value	Level 1	Level 2	Level 3	Total
Cash equivalents ¹	\$ 16,607	\$ -	\$ -	\$ 16,607
Debt securities:				
U.S. government and agencies	-	8,954	-	8,954
Residential mortgage-backed securities	-	1,713	-	1,713
Total debt securities	-	10,667	-	10,667
Derivatives embedded in assets on deposit	-	-	471,192	471,192
Separate account assets	-	69,005	-	69,005
Total assets	\$ 16,607	\$ 79,672	\$ 471,192	\$ 567,471

Liabilities, at Fair Value	Level 1	Level 2	Level 3	Total
Derivatives embedded in annuity contracts	\$ -	\$ -	\$ 471,192	\$ 471,192
Total liabilities	\$ -	\$ -	\$ 471,192	\$ 471,192

¹Excludes cash of \$1,833 that is not subject to fair value accounting.

The Company had no assets or liabilities that required a fair value adjustment on a non-recurring basis as of December 31, 2018 or 2017.

Determination of Fair Values

The Company determines the estimated fair value of its investments using primarily the market approach and the income approach. The use of quoted prices and matrix pricing or similar techniques are examples of market approaches, while the use of discounted cash flow methodologies is an example of the income approach.

A summary of valuation techniques for classes of financial assets and liabilities by fair value hierarchy level are as follows:

Level 1 Measurements

Cash equivalents: Consists of money market funds; valuation is based on the closing price as of the balance sheet date.

Level 2 Measurements

For assets classified as Level 2 investments, the Company values the assets using third-party pricing sources, which generally rely on quoted prices for similar assets in markets that are active and observable market data.

U.S. government and agencies: Certain U.S. Treasury securities and debentures issued by agencies of the U.S. government are valued based on observable inputs such as the U.S. Treasury yield curve, market indicated

spreads and quoted prices for identical assets in markets that are not active and/or similar assets in markets that are active.

Domestic corporate securities: Valued based on observable inputs such as the U.S. Treasury yield curve, market indicated spreads by security rating and quoted prices for identical assets in markets that are not active and/or similar assets in markets that are active.

Residential mortgage-backed securities: Valuation is principally based on observable inputs including quoted prices for similar assets in markets that are active and observable market data.

Foreign corporate securities: Valued based on observable inputs such as the applicable, country-specific market yield curve, market indicated spreads by security rating and quoted prices for identical assets in markets that are not active and/or similar assets in markets that are active.

Separate account assets: Consists of mutual funds and unit investment trusts in which the contract holder could redeem its investment at net asset value per share at the measurement date with the investee.

Level 3 Measurements

Derivatives embedded in assets on deposit and annuity contracts: The Company offers single premium deferred index annuity and flexible premium variable and index linked deferred annuity contracts with certain caps and floors which represent a minimum and maximum amount that could be credited to a contract during that contract year based on the performance of an external index. These embedded derivatives are measured at fair value separately from the host deposit asset and annuity contract.

In estimating the fair value of the embedded derivative, the Company attributes a present value to the embedded derivative equal to the discounted sum of the excess cash flows of the index related fund value over the minimum fund value. The current year portion of the embedded derivative is adjusted for known market conditions. The discount factor at which the embedded derivative is valued contains an adjustment for the Company's own credit and risk margins for unobservable non-capital market inputs. The Company's own credit adjustment is determined taking into consideration publicly available information relating to the Company's debt as well as its claims paying ability.

These derivatives may be more costly than expected in volatile or declining equity markets. Changes in market conditions include, but are not limited to, changes in interest rates, equity indices, default rates and market volatility. Changes in fair value may be impacted by changes in the Company's own credit standing. Lastly, changes in actuarial assumptions regarding policyholder behavior (such as full or partial withdrawals varying from expectations) and risk margins related to non-capital market inputs may result in significant fluctuations in the fair value of the derivatives. See Embedded Derivatives within Note 3, Investments for the impact to net income.

MEMBERS Life Insurance Company
Notes to Financial Statements
(\$ in 000s)

The following table presents information about significant unobservable inputs used in Level 3 embedded derivative liabilities and related assets on deposit measured at fair value developed by internal models as of December 31, 2018 and 2017:

Predominant Valuation Method	Significant Unobservable Input	Range of Values - Unobservable Input	
		2018	2017
Single premium deferred index annuity			
Discounted cash flow	Lapse rates	2% to 4% with an excess lapse rate at the end of the index period of 50% or 95%. Weighted average is 3.7%	2% to 4% with an excess lapse rate at the end of the index period of 50% or 95%. Weighted average is 2.9%
	Company's own credit and risk margin	51 - 113 basis points added on to discount rate. Weighted average is 80 basis points	58 - 99 basis points added on to discount rate. Weighted average is 70 basis points
Flexible premium variable and index linked deferred annuity			
Discounted cash flow	Lapse rates	2% to 10% with an excess lapse rate at the end of the index period of 5% to 20%. Weighted average is 2.6%	2% to 10% with an excess lapse rate at the end of the index period of 5% to 20%. Weighted average is 2.6%
	Company's own credit and risk margin	51 - 113 basis points added on to discount rate. Weighted average is 80 basis points	58 - 99 basis points added on to discount rate. Weighted average is 70 basis points

Changes in Fair Value Measurement

The following table sets forth the values of assets and liabilities classified as Level 3 within the fair value hierarchy at December 31, 2018.

	Balance January 1, 2018	Total Realized/Unrealized Gain (Loss) Included in:			Balance December 31, 2018
		Purchases	Maturities	Earnings ¹	
Derivatives embedded in assets on deposit	\$ 471,192	\$ 109,477	\$ (11,390)	\$ (45,101)	\$ 524,178
Total assets	\$ 471,192	\$ 109,477	\$ (11,390)	\$ (45,101)	\$ 524,178
Derivatives embedded in annuity contracts	\$ 471,192	\$ 109,477	\$ (11,390)	\$ (45,101)	\$ 524,178
Total liabilities	\$ 471,192	\$ 109,477	\$ (11,390)	\$ (45,101)	\$ 524,178

¹ Included in net income is realized gains and losses associated with embedded derivatives.

The following table sets forth the values of assets and liabilities classified as Level 3 within the fair value hierarchy at December 31, 2017.

	Balance January 1, 2017	Total Realized/Unrealized Gain (Loss) Included in:			Balance December 31, 2017
		Purchases	Maturities	Earnings ¹	
Derivatives embedded in assets on deposit	\$ 246,405	\$ 93,748	\$ (5,039)	\$ 136,078	\$ 471,192
Total assets	\$ 246,405	\$ 93,748	\$ (5,039)	\$ 136,078	\$ 471,192
Derivatives embedded in annuity contracts	\$ 246,405	\$ 93,748	\$ (5,039)	\$ 136,078	\$ 471,192
Total liabilities	\$ 246,405	\$ 93,748	\$ (5,039)	\$ 136,078	\$ 471,192

¹ Included in net income is realized gains and losses associated with embedded derivatives.

Fair Value Measurements for Financial Instruments Not Reported at Fair Value

Accounting standards require disclosure of fair value information about certain on- and off-balance sheet financial instruments which are not recorded at fair value on a recurring basis for which it is practicable to estimate that value.

The following methods and assumptions were used by the Company in estimating the fair value disclosures for significant financial instruments:

MEMBERS Life Insurance Company
Notes to Financial Statements
(\$ in 000s)

Level 1 Measurements

Cash: The carrying amount for this instrument approximates its fair value due to its short term nature and is based on observable inputs.

Level 2 Measurements

Assets on deposit and Investment-type contracts: Assets on deposit and investment-type contracts include single premium deferred annuity and the risk control accounts of the flexible premium deferred variable annuity contracts, excluding the related embedded derivative. In most cases, the fair values are determined by discounting expected liability cash flows and required profit margins using the year-end swap curve plus a spread equivalent to a cost of funds for insurance companies based on observable inputs.

Separate account liabilities: Separate account liabilities represent the account value owed to the contract holder, which is equal to the segregated assets carried at fair value.

The carrying amounts and estimated fair values of the Company's financial instruments which are not measured at fair value on a recurring basis at December 31 are as follows:

	2018			2017		
	Carrying Amount	Estimated Fair Value	Level	Carrying Amount	Estimated Fair Value	Level
Financial instruments recorded as assets:						
Cash	\$ 3,282	\$ 3,282	1	\$ 1,833	\$ 1,833	1
Assets on deposit	2,613,918	2,303,358	2	1,981,841	1,726,602	2
Financial instruments recorded as liabilities:						
Investment-type contracts	2,613,918	2,303,358	2	1,981,841	1,726,602	2
Separate account liabilities	103,205	103,205	2	69,005	69,005	2

Note 5: Income Tax

The Company is included in the consolidated federal income tax return filed by CMHC, the Company's ultimate parent. The Company has entered into a tax sharing agreement with CMHC and its subsidiaries. The agreement provides for the allocation of tax expense based on each subsidiary's contribution to the consolidated federal income tax liability. Pursuant to the agreement, subsidiaries that have incurred losses are reimbursed regardless of the utilization of the loss in the current year. Federal income taxes recoverable from affiliate reported on the balance sheet are due from CMFG Life.

Income Tax Expense

Income tax expense for the years ended December 31 is as follows:

	2018		2017		2016	
Current tax expense (benefit)	\$	80	\$	481	\$	647
Deferred tax expense		(262)		193		240
Adjustment of deferred tax assets and liabilities for enacted rate change		-		49		-
Total income tax expense (benefit)	\$	(182)	\$	723	\$	887

Reconciliation to U.S. Tax Rate

Income tax expense differs from the amount computed by applying the U.S. federal corporate income tax rate of 21% for 2018 and 35% for 2017 and 2016 to income before income taxes due to the items listed in the following reconciliation:

	2018		2017		2016				
	Amount	Rate	Amount	Rate	Amount	Rate			
Tax expense computed at federal corporate tax rate	\$	132	21.0%	\$	981	35.0%	\$	953	35.0%
Income tax expense (benefit) related to prior years		(240)	(38.2)		(221)	(7.8)		(53)	(2.0)
Dividends-received deduction		(59)	(9.4)		(83)	(3.0)		(11)	(0.4)
Foreign Tax Credit		(14)	(2.2)		-	-		-	-
Adjustment of deferred tax assets and liabilities for enacted rate change		-	-		49	1.7		-	-
Other		(1)	(0.2)		(3)	(0.1)		(2)	(0.1)
Total income tax expense (benefit)	\$	(182)	(29.0%)	\$	723	25.8%	\$	887	32.5%

Deferred Income Taxes

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial statement purposes and the amounts for income tax purposes. Significant components of the Company's deferred tax assets and liabilities at December 31, 2018 and 2017 are as follows:

	2018	2017
Deferred tax assets		
Tax reserves method change	\$ 11	\$ 15
Unrealized investment losses	61	-
Accrued expenses	293	280
Deferred policy acquisition costs	380	291
Other	-	1
Gross deferred tax assets	745	587
Deferred tax liabilities		
Investments	354	490
Deferred reinsurance expense	16	19
Unrealized investment gains	-	4
Gross deferred tax liabilities	370	513
Net deferred tax asset	\$ 375	\$ 74

Valuation Allowance

The Company considered the need for a valuation allowance with respect to its gross deferred tax assets as of December 31, 2018 and 2017, and based on that evaluation, the Company has determined it is more likely than not all deferred tax assets as of December 31, 2018 and 2017 will be realized. Therefore, a valuation allowance was not established.

Unrecognized Tax Benefits

There are no unrecognized tax benefits as of December 31, 2018 and 2017. Management does not anticipate a material change to the Company's uncertain tax positions during 2019.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits in income tax expense in the statements of operations and comprehensive income (loss). For the years ended December 31, 2018 and 2016, the Company did not recognize any addition or reduction in interest and penalties. For the year ended December 31, 2017, the Company recognized a reduction in interest and penalties of \$5. The Company had accrued \$2 and \$2 for the payment of interest and penalties at December 31, 2018 and 2017, respectively.

The Company is included in a consolidated U.S. federal income tax return filed by CMHC. The Company also files income tax returns in various states. For the major jurisdictions where it operates, the Company is generally no longer subject to income tax examinations by tax authorities for years ended before 2013. Amended refund claims filed for tax years 2010 and 2012 are currently under examination as part of the Joint Committee on Taxation approval process.

Other Tax Items

As of December 31, 2018 and 2017, the Company did not have any capital loss, operating loss or credit carryforwards.

Tax Reform

The Tax Act made changes to the U.S. tax code, including, but not limited to, reducing the U.S. federal corporate tax rate to 21% effective January 1, 2018.

The Company completed its initial evaluation of the impacts of the Tax Act and recorded a net tax expense of \$49 for the year ended December 31, 2017 due to the remeasurement of deferred tax assets and liabilities.

The Company has made no adjustments to the impacts initially recorded for the year ended December 31, 2018. The Company's accounting for the impact of the Tax Act is now complete with no material changes to the amount recorded at December 31, 2017.

Note 6: Related Party Transactions

In the normal course of business, there are various transactions between the Company and other related entities. In certain circumstances, expenses such as those related to sales and marketing, administrative, operations, other support and infrastructure costs are shared between the companies. Expenses incurred that are specifically identifiable with a particular company are borne by that company; other expenses are allocated among the companies on the basis of time and usage studies. Amounts due from transactions with affiliates are generally settled monthly. The Company reimbursed CMFG Life \$30,131, \$20,808 and \$15,349 for these expenses in 2018, 2017 and 2016, respectively; which are included in operating and other expenses.

Amounts receivable/payable from/to affiliates are shown in the following table:

	2018	2017
Receivable from:		
CMFG Life	\$ 5,001	\$ 8,492
Other	26	-
Total	\$ 5,027	\$ 8,492
Payable to:		
CUNA Brokerage Services, Inc.	\$ 2,948	\$ 2,749
Other	58	22
Total	\$ 3,006	\$ 2,771

Amounts receivable from CMFG Life at December 31, 2018 and 2017 are primarily for a policyholder's purchase of an MLIC annuity when a CMFG Life policyholder has surrendered their policy for the purchase of a single premium deferred index annuity or flexible premium variable and index linked deferred annuity and for the cession of death claims related to the Company's single premium deferred index annuity or flexible premium variable index linked deferred annuity.

The Company hires MEMBERS Capital Advisors, Inc. ("MCA") for investment advisory services. MCA, which is 100% owned by CMIC, manages substantially all of the Company's invested assets in accordance with policies, directives and guidelines established by the Company. The Company recorded MCA investment management fees totaling \$58, \$21 and \$28 for the years ended December 31, 2018, 2017 and 2016, respectively, which are included as a reduction to net investment income.

The Company utilizes CUNA Brokerage Services, Inc., which is 100% owned by CMIC, to distribute its single premium deferred index annuity and flexible premium variable and index linked deferred annuity and recorded commission expense for this service of \$29,996, \$29,114 and \$24,900 in 2018, 2017 and 2016, respectively, which is included in operating and other expenses. This expense is entirely offset by commission income the Company receives from CMFG Life as part of the 2013 and 2015 reinsurance agreements.

The Company received additional paid in capital of \$20,653 of debt securities from CMIC in 2018, net of deferred tax liability of \$24. The Company received no additional paid in capital in 2017 or 2016. The Company paid a \$7,000 cash dividend to its parent in 2017. The Company paid no dividends in 2018 or 2016.

See Note 7 regarding reinsurance and other agreements entered into by the Company and CMFG Life.

Note 7: Reinsurance

The Company entered into a reinsurance agreement with its affiliate, CMFG Life, on a coinsurance and modified coinsurance basis to cede 100% of its investment-type contracts for its flexible premium variable and index linked deferred annuity, which are accounted for using the deposit method of accounting. On October 15, 2018, the Company amended its reinsurance agreement with CMFG Life to include a new flexible premium variable and index linked deferred annuity offering by the Company and will continue to cede 100% of its investment-type contracts for its flexible premium variable and index linked deferred annuities. The Company had \$337,755 and \$165,924 of assets on deposit for these contracts as of December 31, 2018 and 2017, respectively. The Company had related liabilities of \$337,755 and \$165,924 as of December 31, 2018 and 2017, respectively, which are included in policyholder account balances in the balance sheets. The Company had separate account assets and liabilities for these contracts of \$103,205 and \$103,205 and \$69,005 and \$69,005, respectively, as of December 31, 2018 and 2017. The Company receives a commission equal to 100% of its actual expenses incurred for this business, which was \$17,738, \$11,019 and \$6,302 for the years ended December 31, 2018, 2017 and 2016, respectively.

The Company entered into a second agreement with its affiliate, CMFG Life, to cede 100% of its investment-type contracts for its single premium deferred index annuity, which are accounted for using the deposit method of accounting. The Company had \$2,800,341 and \$2,287,109 of assets on deposit for these contracts as of December 31, 2018 and 2017, respectively. The Company had related liabilities of \$2,800,341 and \$2,287,109, respectively which are included in policyholder account balances in the balance sheets. The Company receives a commission equal to 100% of its actual expenses incurred for this business, which was \$52,652, \$44,773 and \$37,961 for the years ended December 31, 2018, 2017 and 2016, respectively.

On October 31, 2012, the Company ceded 95% of its insurance policies in force pursuant to a reinsurance agreement with CMFG Life and the Company was reimbursed for 95% of expenses incurred in the provision of policyholder and benefit payment services, and insurance taxes and charges on a go forward basis under this contract. On September 30, 2015, the Company amended its reinsurance agreement with CMFG Life and now cedes 100% of its insurance policies in force to CMFG Life and is reimbursed 100% for expenses incurred in the provision of policyholder and benefit payments services, and insurance taxes and charges going forward. The Company receives a commission equal to 100% of its actual expenses incurred for this business, which was \$767, \$839 and \$894 for the years ended December 31, 2018, 2017 and 2016, respectively.

MLIC did not have any other reinsurance agreements at December 31, 2018 or 2017 and the entire reinsurance recoverable balance of \$24,034 and \$23,973, respectively, was due from CMFG Life. The recoverable balances

MEMBERS Life Insurance Company
Notes to Financial Statements
(\$ in 000s)

are not collateralized and the Company retains the risk of loss in the event CMFG Life is unable to meet its obligations assumed under the reinsurance agreements. MLIC believes the risk of non-collection is remote due to CMFG Life's stable financial strength ratings of A from A.M. Best Company and S&P Global Ratings and A2 rating from Moody's Investors Service.

The effects of reinsurance on contract charges, interest credited to policyholder accounts, premiums and on claims, benefits, and losses incurred for the years ended December 31 are as follows:

	2018	2017	2016
Face amount of policies in force	\$ 80,872	\$ 86,587	\$ 95,577

Note 8: Statutory Financial Data and Dividend Restrictions

The Company is a life and health insurer and is domiciled in Iowa. The Company files statutory-basis financial statements with insurance regulatory authorities. The Company did not use any permitted practices in 2018, 2017 or 2016. Certain statutory basis financial information for MLIC is presented in the table below as of and for the years ended December 31.

	Statutory Basis Capital and Surplus		Statutory Basis Net Income		
	2018	2017	2018	2017	2016
MLIC	\$ 39,447	\$ 18,601	\$ 419	\$ 1,914	\$ 1,051

The Company is subject to statutory regulations as to maintenance of equity and the payment of dividends. Generally, ordinary dividends from an insurance subsidiary to its parent company must meet notice requirements promulgated by the regulator of the subsidiary's state of domicile ("Insurance Department"). Extraordinary dividends, as defined by state statutes, must be approved by the Insurance Department. Based on Iowa statutory regulations, the Company could pay dividends up to \$3,294 during 2019, without prior approval of the Insurance Department.

Risk-based capital ("RBC") requirements promulgated by the National Association of Insurance Commissioners (NAIC) require U.S. insurers to maintain minimum capitalization levels that are determined based on formulas incorporating credit risk, insurance risk, interest rate risk, and general business risk. The adequacy of the Company's actual capital is evaluated by a comparison to the RBC results, as determined by the formula. At December 31, 2018 and 2017, the Company's adjusted capital exceeded the RBC minimum requirements as required by the NAIC.

Note 9: Accumulated Other Comprehensive Income (Loss)

The components of accumulated other comprehensive income (loss), net of tax, are as follows:

	Unrealized Investment Gains (Loss)	Accumulated Other Comprehensive Income (Loss)
Balance, January 1, 2016	\$ (225)	\$ (225)
Change in unrealized holding gains (losses), net of tax - (\$53)	(98)	(98)
Balance, December 31, 2016	(323)	(323)
Change in unrealized holding gains (losses), net of tax - \$181	334	334
Balance, December 31, 2017	11	11
Effect of change for ASU 2018-02 (Note 2)	3	3
Change in unrealized holding gains (losses), net of tax - (\$64)	(240)	(240)
Balance, December 31, 2018	\$ (226)	\$ (226)

Reclassification Adjustments

Accumulated other comprehensive income (losses) includes amounts related to unrealized investment gains (losses) which were reclassified to net income. Reclassifications from accumulated other comprehensive income (loss) for the year ended December 31, 2018 was \$52, net of deferred taxes of \$14. There were no reclassification adjustments for the years ended December 31, 2017 and 2016.

Note 10: Business Segment Information

Note 11: Commitments and Contingencies

Insurance Guaranty Funds

The Company is liable for guaranty fund assessments related to certain unaffiliated insurance companies that have become insolvent during 2017 and prior years. The Company includes a provision for all known assessments that will be levied as well as an estimate of amounts that it believes will be assessed in the future relating to past insolvencies. The Company has established a liability of \$1,224 and \$992 at December 31, 2018 and 2017, respectively, for guaranty fund assessments. The Company also estimates the amount recoverable from future premium tax payments related to these assessments and has not established an asset as of December 31, 2018 and 2017 since it does not believe any amount will be recoverable. Recoveries of assessments from premium taxes are generally made over a five-year period.

Legal Matters

Like other members of the insurance industry, the Company is occasionally a party to a number of lawsuits and other types of proceedings, some of which may involve claims for substantial or indeterminate amounts. These actions are based on a variety of issues and involve a range of the Company's practices. The Company has established procedures and policies to facilitate compliance with laws and regulations and to support financial reporting.

In connection with regulatory examinations and proceedings, government authorities may seek various forms of relief, including penalties, restitution and changes in business practices. The Company may not be advised of the nature and extent of relief sought until the final stages of the examination or proceeding. In the opinion of management, the ultimate liability, if any, resulting from all such pending actions will not materially affect the financial statements of the Company.

Note 12: Subsequent Events

The Company evaluated subsequent events through the date the financial statements were issued. During this period, there were no subsequent events that required adjustment to or disclosure in the accompanying financial statements.
